

# SPOT?

**The Solution  
For Your Problem**

**Problem:**

Build up of left over food waste, which attracts disease carrying insects (cockroaches), that accumulate in kitchens, cool rooms, toilets and food preparation areas which attract flies and create offensive odours.

**SOLUTION:**

**NAMA CARE** is an easily applied natural sanitiser and cleaner that controls disease carrying insects and kills harmful bacteria on contact.

**NAMA CARE** is a natural, safe to use, non toxic product that will “**NAMA CARE**” your premises. **NAMA CARE** is convenient and ready to use in our 2 litre hose on packs or bulk, diluted at a “Hospital Grade” rate up to 20:1.

**Problem:**

Cross infection caused by lack of hygiene on hands that cause cross contamination due to poor hygienic practices.

**SOLUTION:**

**AQUA ZOOM** is a natural, powerful sanitiser hand wash that has no harsh caustics and is gentle on your hands.

**Problem:**

Grime and finger marks on glass, stainless steel, bar and table tops or anywhere needing protection from daily usage.

**SOLUTION:**

**NAMA SHIELD** has unique anti static qualities that resist the attraction of dirt/dust and contains natural plant extracts and sanitising agents that polish and protect glass, vinyl, leather, stainless steel, bar and table tops.

**NAMA SHIELD** is non toxic, safe to use and protects against water, grime, dust, finger prints, salt spray, streaks and marks.

**Problem:**

Dirty glasses stained from bitters, citrus, cordials, milk, lipstick and body fats.

**SOLUTION:**

**AQUA BRITE** contains specialised wetting compounds that penetrate and break the surface tension to remove contaminants on glasses, cutlery and crockery.

**AQUA BRITE** allows the swift removal of stains and food contamination. **AQUA BRITE** is pH7 neutral and is safe for the user without the worrying effects of highly caustic and acidic compounds that are in use now.

**Problem:**

Animal fats, vegetable oil and dirt and grime build up on floors of food preparation areas or bar service areas, that cause and attract disease.

**SOLUTION:**

**NAMA CLEAN** is a safe, powerful, pH neutral, cleaning agent that emulsifies animal fat, vegetable oils, dirt and grime and can be safely used on most surfaces including metal, glass, rubber, plastic, concrete and painted areas.

**NAMA CLEAN** is a non toxic, non harmful, all purpose cleaner for use where animal fats and vegetable oils are a problem.

**Problem:**

Build up of uric acid and stains on stainless steel urinals, tiles and grouting in bathroom and shower areas that cause and promote objectionable odours.

**SOLUTION:**

**NAMA POWER** is a concentrated, natural, biodegradable cleaning product which has a unique triple action.

**NAMA POWER** kills bacteria on contact, removes grime and controls odour. Removes stubborn stains from urinals, sinks, toilet and shower areas.

**Problem:**

Build up of excess levels of bacteria and disease carrying organisms in hospitality and food preparation areas.

**SOLUTION:**

**NAMA CARE** combines the disinfecting power of Australian plant extracts with a natural biodegradable cleaner clinically proven effective against bacteria including Pseudomonas and Streptococcus on contact. **NAMA CARE** is safe to use in all hospitality and food preparation areas.

**Problem:**

Build up of yeast and other bacteria in beer lines that cause contamination and flattening of the beer at the tap head.

**SOLUTION:**

**KLEER LINES** is a concentrate specially designed to clean beer lines. **KLEER LINES** will not taint or affect the taste of beer. It has one part easy application.

With **KLEER LINES** you can provide your patrons with the "Perfect Beer Experience".

Here at Ecoworkz Australia we are committed to providing natural, environmentally sensitive, user-friendly alternatives to using harsh and caustic chemicals.

Ecoworkz Australia is able to offer effective biodegradable, phosphate free, non free, non toxic solutions for a broad range of industries.

Our products are specially formulated using natural plant extracts that are proudly manufactured in Australia. Using unique patents we have developed a range of products that are also efficient, cost effective, that work. Our aim at Ecoworkz Australia is to develop real, effective solutions that are easy on our planet.

We offer this handy guide to demonstrate how our products will help you, however we are also committed to one of our technical service representatives to demonstrate our products in person. It's our way of proving our claim of making the most of work efficient, environmentally friendly, natural range of products in Australia.

If you are looking for natural solutions to your problem please don't hesitate to contact us at Ecoworkz Australia. We'll be glad to help your further.
