

# NFS

## ORGANIC PLANT PROTECTANT

### Fungal and Disease Inhibitor

- **BIO-DEGRADABLE**
- Specialised wetting agent that contains essential oils that prevent and combat the environment in which plant diseases develop
- Contains natural agents to help lower the tensions of soil moisture to promote a deeper root system
- Developed to break down the surface tension to allow moisture removal
- Protects the plant by leaving a residual water repellent coating that enhances dew and moisture run off
- Suitable for drip, folia and root application

## APPLICATIONS AND USES

Fine Turf  
Sporting Fields  
Nurseries  
Vegetable Crops  
Shrubs  
Plants
